PROFILE

Results-driven PHP Web Developer with over 3 years of experience in full-stack web development, specializing in PHP and MySQL. Skilled in building scalable e-commerce platforms, MLM software, and blockchain-based applications. Experienced in integrating payment gateways, handling cryptocurrency transactions, and developing and deploying smart contracts. Proven ability to deliver high-quality, business-focused software solutions while collaborating effectively within cross-functional teams. Committed to writing clean, efficient code and continuously improving application performance and user experience.

EXPERIENCE

PHP CodeIgniter Developer

2023-2025

I have developed and maintained dynamic web applications using PHP and MySQL to support company and client needs, collaborated with front-end developers to deliver seamless user interfaces with JavaScript and jQuery, contributed to blockchain projects with smart contract creation and multi-currency payment processing, and worked on API development and testing with Postman to ensure performance stability and security compliance on mobile devices.

PHP Laravel Developer & Angular Developer

2025-2026

I have built CMS-based websites by developing the frontend with Angular and creating RESTful APIs with Laravel, delivering a full admin dashboard that allows administrators to manage and edit website content such as products, services, and site details.

PHP Laravel Developer & NextJs Developer

2026-

I have developed custom software solutions including CRM, ERP, project management tools, and blockchain-based applications by building dynamic frontends with NextJs and robust RESTful APIs using Laravel, delivering fully featured admin dashboards that enable efficient management of business processes, data, and system operations.

EDUCATION

Diploma In Computer Engineering

2020-2023
